### EXPERIENCE

2021

#### SOFTWARE SYSTEMS ENGINEER

[Ekta Flow](#) | [August 2021 - Present](#)

Works closely with client product team to create and integrate front-end solutions in Angular.js and Ionic.js for web/mobile applications and Electron for desktop. Was solely responsible for refactoring GraphQL schema, corresponding queries/mutations, and Apollo Server for concise data fetching. engaged with clients to assess data analysis needs, including: cleansing transforming, and unifying data, as well as performing statistical analysis.

#### SOFTWARE ENGINEER INSTRUCTOR

[Fullstack Academy](#) | [July 2021 - Present](#)

Collaborates with co-instructor on creating and delivering lectures in PERN stack web development and software engineering principles. Delivers training modules and workshops to students, and supports them in 1-on-1 capacity.

#### WEB DEVELOPMENT INSTRUCTOR ASSISTANT

[Noble Network Charter Schools](#) | [March 2021 - June 2021](#)

Familiarized high school sophomores with concepts in web development, including using HTML, CSS, and JavaScript, to build responsive websites. Introduced pair programming methodology, which helped promote total student comprehensions while curbing learning time.

2020

#### DATA ANALYST

[ADMT Solutions](#) | [January 2020 - July 2020](#)

Synthesized current business intelligence data to produce reports and polished presentations, highlighting findings and recommending changes. Created and improved intelligence resources to facilitate consistent data management strategies.
