## EDUCATION

### FULLSTACK ACADEMY

**Certificate** - Software Engineering Principles | Sep. 2020 - Feb. 2021

- An immersive 17-week full-stack software development program specializing in the NERD stack.

### BRYANT UNIVERSITY

**Master of Arts** - Communications | Sep. 2017 - Jan. 2019

- Utilized SPSS and SAS on research data to perform statistical analysis and regression.

### BROWN UNIVERSITY

**Bachelor of Arts** - Cognitive Neuroscience | Sep. 2013 - May. 2017

- Employed computational modeling, brain imaging and methods of experimentation to study brain faculties.

## PROFESSIONAL EXPERIENCE

### SOFTWARE SYSTEMS ENGINEER

Aug. 2021 - present

Ekta Flow

- Partners with clients and other developers to design, build and roll out solutions that optimize complex workflows.
- Refactored GraphQL schema, queries/mutations, and Apollo-Server for concise data fetching
- Integrate front-end solutions in Angular.js and Ionic.js for web/mobile applications.
- Engages with clients to assess data analysis needs, including: cleansing, transforming, and unifying data, as well as performing statistical analysis in Tableau.

### SOFTWARE ENGINEERING INSTRUCTOR

Aug. 2021 - present

Fullstack Academy

- Teach students to design full-stack JS applications using technologies such as React, Express, Node and SQL
- Lecture on complex Computer Science concepts, including design and theory.
- Perform live demos with real world examples imparting practical skills.
- Assist in developing and building out curriculums.

### WEB DEVELOPMENT IA

Feb. 2021 - Jun. 2021

Noble Network Charter Schools

- Mentored and taught technical concepts, best practices and helped debug issues for over 35 students.

## DEVELOPER SKILLS

JavaScript	SQL	Angular.js
Node.js	PostgreSQL	Ionic.js
Python	MongoDB	Apollo
React.js	Firebase	Mocha
Express.js	Git	Jest
Redux.js	REST API	Chai
Jira	Agile	TDD
